WOOD'S CROP SPECIAL

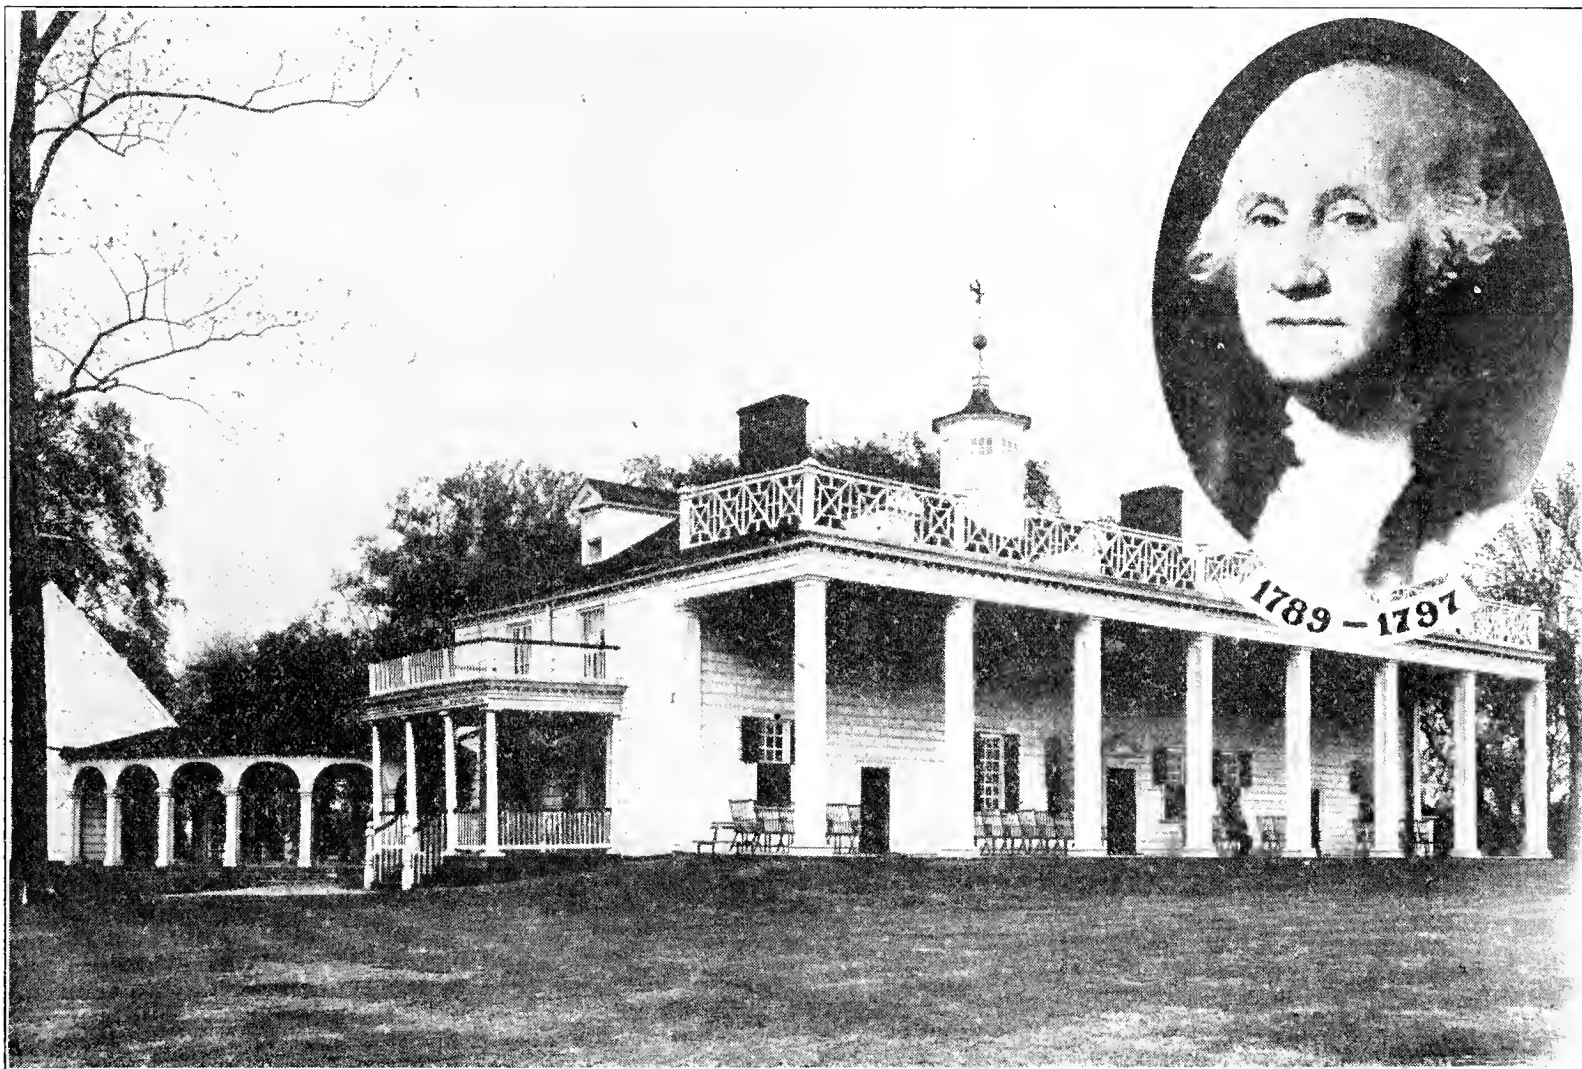

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T.W. WOOD & SONS SEEDSMEN RICHMOND VA.

VOL. XXVII.

MARCH EDITION

1932

Wood's Seeds have been used for many years on the Mount Vernon Grounds

THE WASHINGTON BI-CENTENNIAL

In this magnificent picture of historic Mount Vernon and its immortal owner, GEORGE WASHINGTON, we would recall to mind the Bi-Centennial of the birth of the Father of our Country. This pre-eminent Virginian and Patriot cultivated his broad acres on the Potomac with consummate skill as a farmer. His knowledge of tillage of the land and successful crop raising is a matter of historic knowledge to this day. We urge all of our customers as opportunity offers to join us this year in celebrating the 200th Anniversary of Washington's birth, and renew our allegiance to the lofty ideals of America's great Patriot and first President.

T. W. Wood & Sons

PRICES OF WOOD'S FINE QUALITY SEEDS ARE THE LOWEST IN TWENTY YEARS AND IN LINE WITH ALL FARM PRODUCTS

PLAN NOW TO —

Keep your garden working.
Grow plenty of feed for all live stock.
Put in soil building crops.
Sow Grasses and Clovers for Permanent Pasture.
The live at home program is the real farm relief for every farmer.

Sowing Legumes Will Pay Dividends

Never in the past twenty years have prices on seeds of all legume crops been so reasonably priced, and where possible, every advantage should be taken to increase the productiveness of farm lands by putting in soil building crops.

FOR PERMANENT PASTURE AND HAY CROPS SOW WOOD'S SPECIAL GRASS AND CLOVER SEED MIXTURES

Our Special Mixtures for mowing for hay are composed principally of grasses which ripen together for the first cutting; but they also contain smaller proportions of other grasses which will increase considerably the second cutting, and also add very much to the pasturage yield, in case it is desired to use the fields for pasturage afterward. These grass mixtures afford splendid crops of hay of the finest quality and highest feeding value, and after being cut will give continuous and abundant pasturage of the richest and most nutritious character till winter comes. Fields sown with these mixtures will last for years. May be used for hay exclusively, or for hay and pasturage as may be most needed.

ONE OF THESE MIXTURES ARE RECOMMENDED FOR YOUR SOIL

Permanent Pasture Mixtures

- Mixture No. 1—For light gravelly or sandy soils.
- Mixture No. 2—For good loam soils.
- Mixture No. 3—For heavy loam or clay soils.
- Mixture No. 4—For moist bottom land.
- Mixture No. 5—For wet bottom land.

Sow 30 to 35 pounds per acre.

WHY SOW MIXED GRASSES

All authorities agree that a mixture of grasses will yield a better crop than a single grass. The greater the number of grasses in a mixture the thicker the stand, and a more prolonged growth is produced. Mixtures occupy the ground more completely than a single grass and help to keep out weeds. Some grasses grow in tufts and require other grasses to fill in. In pastures, mixtures yield a constant succession of growth from spring till fall. Mixtures last for years. Mixtures insure against failure of any one grass. Mixtures give more and better grazing for a longer season than a single grass. Mixtures will give you a chance for a crop in any season. Mixtures insure a denser growth than the same number of seed of one or two varieties.

Permanent Hay Mixtures

- Mixture No. 6—For light gravelly or sandy soils.
- Mixture No. 7—For good loam soils.
- Mixture No. 8—For heavy loam or clay soils.
- Mixture No. 9—For moist bottom land.

Prices of all Mixtures Nos. 1 to 9 inclusive: By mail postpaid, lb. 28c.; 5 lbs., \$1.10; 10 lbs., \$1.95; 25 lbs., \$4.15.

Not postpaid: lb. 20c.; 5 to 24 lbs., 16c. lb.; 25 to 99 lbs., 14c. lb.; 100 lbs. and over, 13½c. lb.

Showing a single plant and thick growth of Korean Lespedeza

OTHER STRAINS OF LESPEDEZA

COMMON LESPEDEZA.—The latest maturing strain, and is in full growth from August till frost. Recommended mainly to be used for pasture purposes.

TENNESSEE No. 76.—About the same maturity as Common, except grows from six to eight inches taller, and better adapted for hay.

KOBE.—Possibly the tallest growing of any of the Lespedezas. Will continue its growth even after frost.

The above strains are not recommended for use in the mountain sections on account of late maturity, and will only reseed in lower elevations.

WOOD'S FINE QUALITY LESPEDEZA TESTS OVER 99% PURITY AND OVER 90% GERMINATION

KOREAN LESPEDEZA DODDER FREE

A Wonderful Hay and Soil Improving Crop

This valuable legume, commonly called the Alfalfa of the South, is a most valuable hay and pasture crop. Reaching its full growth in sixty to seventy days during July, August and September when other pastures are poor. Korean is the earliest maturing of the various Lespedezas, and as a result has found favor in a wide territory of the eastern United States.

The Approved and Certified Seed which we are offering have been field inspected by the Crop Improvement Association and tested by both the North Carolina and Virginia Department of Agriculture and found to be 100% dodder free.

A WORD OF WARNING.—There is a large quantity of Lespedeza offered on the market that contains from a small amount to a very large quantity of dodder. Seed of this character is expensive at any price, and our customers are urged to guard against this seed which is being offered at cheap prices. Play safe and demand approved and certified Korean Lespedeza.

Seeding.—All strains of Lespedeza can be sown from February through April with excellent results. Although annuals, they will reseed themselves and furnish permanent crops after once a stand is obtained. On account of earliness in maturity Korean will reseed even in the higher altitudes, whereas the later maturing strains, such as Common, Kobe and Tennessee No. 76, are better adapted to the lower elevations for permanent crops.

DON'T OVERLOOK

ALFALFA

—AND—

SWEET CLOVER

In the Piedmont section and higher altitudes there is no crop that is the equal of Alfalfa as a feed and tonnage producer. It is one of our most profitable crops, furnishing three to five cuttings each season, and a constant dividend payer. Wood's Kansas Grown Alfalfa is the best adaptable strain and of exceptional quality. Testing over 99½% purity and 95% germination. There is none better.

This is by far our leading soil improving crop. It has been conservatively estimated that an acre of Sweet Clover turned under will supply as much nitrogen as twenty tons of ordinary farm manure. Thrives well on all types of soil—the important requirements for a good stand are inoculation of seed and lime. Seed during March and early April at the rate of twenty pounds per acre. The cheap seeding cost commends Sweet Clover.

USE WOOD'S "STANDARD" FERTILIZERS

Wood's "Standard" Fertilizers represent the very best combination of plant foods. All raw materials are carefully selected for their availability as plant feeders and care is given in mixing them in correct proportions to insure a properly balanced ration of soluble plant foods for the different crops.

"Standard" Vegetable Fertilizer—8-4-4. 50 lbs. 85c.; 100 lbs. \$1.40; 200-lb. bag, \$2.65; ton, \$25.00.

"Standard" Potato Fertilizer—Available Phosphoric Acid 7%; Ammonia 5%; Potash 7%. 50 lbs. 90c.; 100 lbs. \$1.65; 200-lb. bag, \$3.00; ton, \$29.00.

"Standard" Corn Fertilizer—12-2-4. 100 lbs. \$1.40; 200-lb. bag, \$2.60; ton, \$24.00.

Market Garden Fertilizer—8-5-5. 100 lbs. \$1.60; 200 lbs. \$2.95; ton, \$28.00.

"Super Standard" Fertilizer—16-4-4. 100 lbs. \$1.75; 200 lbs. \$3.25; ton, \$31.00.

"Standard" Fairgreen Fertilizer—(For Lawns). 100-lb. bag \$2.90; ton, \$55.00.

"Standard" Bone Meal—3-22. (In paper-lined bags.) 50 lbs. \$1.15; 100 lbs. \$2.00; ton, \$36.00.

"Standard" Super-Phosphate—16%. 200 lbs. \$1.70; ton, \$16.00.

Nitrate Soda—In paper-lined waterproof burlap bags. Drills easily. 100-lb. bag, \$2.40; ton, \$46.00.

Sulphate of Ammonia—50 lbs. \$1.20; 100 lbs. \$2.00.

Wood's High-Grade Sheep Manure—25 lbs. 80c.; 50 lbs. \$1.30; 100-lb. bag, \$2.25; ton, \$43.00.

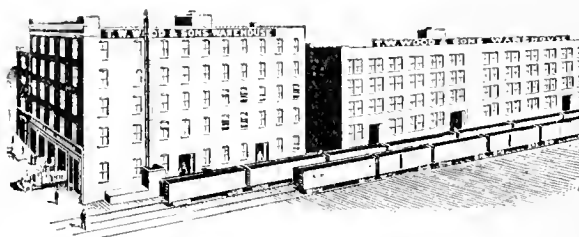

Vigoro (Swift's Plant Food). 5 lbs. 50c.; 25 lbs. \$1.75; 50 lbs. \$3.00; 100 lbs. \$5.00.

Hydrated Lime—10 lbs. 25c.; 50 lbs. 75c.

Imported Basic Slag (Thomas Phosphate), 200 lbs. \$2.65; ton, \$25.00.

WOOD'S SUPERIOR QUALITY FEEDS

Like our famous poultry feeds they are a balanced ration of protein and carbohydrates for muscle, vigor and production; minerals for bone and sturdiness; and vitamins for health.

WOOD'S 16% DAIRY FEED 100 lbs. \$1.25; 5-bag lots, \$1.20; ton, \$23.00.

WOOD'S 20% DAIRY FEED Large dairymen report it most palatable and a fourth more feeding value than many 20% feeds. Has 1520 pounds digestible nutrients per ton. Per 100 lbs. \$1.40; 5-bag lots, \$1.35 per 100 lbs.; per ton, \$26.00.

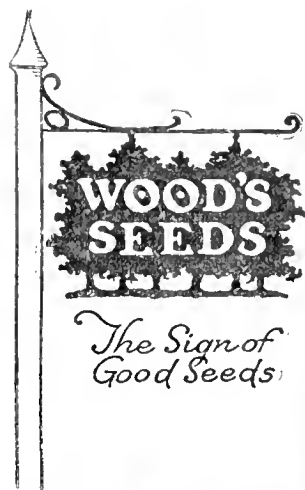

WOOD'S 24% DAIRY FEED Contains high quality, easily digested protein, balanced for maximum milk production and health. Per 100 lbs. \$1.45; 5-bag lots, \$1.40 per 100 lbs.; per ton, \$27.00.

WOOD'S HORSE AND MULE FEED With heavy, bright oats and cracked yellow corn as a base, this feed is blended to give maximum endurance and stamina. Per 100 lbs. \$1.30; 5-bag lots, \$1.25 per 100 lbs.; ton, \$24.00.

WOOD'S DOG FOOD Large parts of meat meal, buttermilk and minerals. Gives dogs endurance in hunting, and fine condition while idle. Dogs love it. Mix with water and bake like corn bread. 25 lbs. \$1.10; 50 lbs. \$2.00; 100 lbs. \$3.50.

WOOD'S HOG FEED Large proportion of tankage balanced with peanut and soy-bean meal, minerals and vitamins. Gives twice the feeding value to corn than corn fed alone. Per 100 lbs. \$1.45; 5-bag lots, \$1.35 per 100 lbs.; per ton, \$25.00.

WOOD'S RABBIT FEED Heavy, bright grain, coarsely crushed, with fine particles removed, balanced with minerals and vitamins for quick, vigorous growth and fine quality fur. 25 lbs. 90c.; 50 lbs. \$1.50; 100 lbs. \$2.80.
